**CODE OF BEHAVIOUR &
OUR LEARNING CODE**

Introduction

St. Paul's Secondary School is a Catholic voluntary secondary school, under the trusteeship of Le Chéile Schools Trust. The school values the role of parents in the education of their children and seeks to work in partnership with parents. By enrolling their daughters in St. Paul's, parents indicate their support of the ethos of the school and acceptance of the Code of Behaviour and Learning Code.

In this Policy 'Parent' will mean Parent or Guardian.

A shortened, more student-friendly version of the Code of Behaviour is outlined in the school journal, a copy of which is given to each student at the beginning of the school year.

Scope of this Policy

This Code of Behaviour applies to all students in St Paul's Secondary School while in school, while travelling to or from school and while attending or participating in any school activities, trips, sporting or cultural events. The code applies to the use of St Paul's Secondary School website and encompasses the school's *Acceptable Use Policy*.

Aims and Objectives of St Paul's Secondary School Code of Behaviour

- to foster a positive and motivational learning environment
- to encourage good behaviour and protect the right of all students to learn

- to maintain a consistent approach to classroom management and strategies for promoting good behaviour

Our Learning Code 2019-20

Addressing Unacceptable Behaviour

- All members of staff have a responsibility to promote good order and positive student behaviour on school premises and on school-related activities

- The subject teacher is responsible for the management of behaviour in his / her classroom and is expected to address minor infringements of the Code as they arise
- Serious misbehaviour within the classroom or repetitive minor infringements of the Code may be referred by the subject teacher to the Form Teacher or Year Head, as appropriate
- Form Teachers have an agreed pastoral role and when dealing with disciplinary issues may consult the Year Head
- Year Heads have a specific role in managing the behaviour of students in a particular year group. They usually deal (though not exclusively) with more serious misbehaviour or persistent minor infringements
- If a Year Head is concerned about the persistent misbehaviour of a student, that student may be referred directly to the Deputy Principal / Principal
- In the case of a very serious incident a student may be sent directly to the Principal or Deputy Principal
- Where there are repeated instances of more serious misbehaviour, parents will be requested to attend at the school to meet the Principal / Deputy Principal

The School Code of Behaviour is based on an initial pastoral approach to resolving problems. Instances of misbehaviour should be addressed as soon as possible. Sanctions may be required where expectations regarding student behaviour are not met.

The purpose of a sanction is:

- to prevent the disruption of teaching and learning
- to help the student understand why her behaviour is unacceptable
- to help her recognise the effect of her action and behaviour on others
- to help her to take responsibility
- to ensure the safety of the student and others in the school community
- to involve the student in planning a positive way forward

Sanctions should be fair and proportionate, and should take account of the individual circumstances of the student.

Minor misbehaviour may be regarded as a situation where a student who generally observes the required standards of behaviour has breached a minor school rule. The breach is usually dealt with immediately by the member of staff involved. Students are expected to respond appropriately. Any breach of a minor rule may be aggravated and become more serious when a student responds inappropriately.

More serious misbehaviour usually involves referral of the student concerned to the Year Head, Deputy Principal or Principal. More serious misbehaviour is recorded and the issue is generally discussed with parents and their cooperation in addressing the problem is requested. More serious misbehaviour may be aggravated and deemed unacceptable when a student refuses to cooperate.

Gross Misbehaviour is regarded as misbehaviour which is totally unacceptable and / or dangerous, and / or anti-social.

It includes:

- drugs or alcohol related incidents, including supply, possession or use of either (see *Substance Use Policy*)
- physical violence or threat of physical violence to another person

- aggressive, threatening or violent behaviour towards a teacher or any member of the school community
- bullying, including on-line bullying (see *Anti-Bullying Policy and Procedures, ICT Policy and Acceptable Use Policy*)
- downloading, reproducing or publishing online or offline, any material published on the school website without the written permission of the Principal and/or the owner of the material
- accessing, possession or dissemination of pornographic material
- theft
- serious damage to school property
- an unacceptable level of repeated serious misbehaviour
- a situation where the student's continued presence in the school constitutes a threat to her own safety or that of others
- behaviour contrary to the *Equal Status Acts 2000-2004*. This legislation strictly prohibits any form of discrimination pertaining to an individual's gender, marital status, family status, sexual orientation, religion, age, disability, race and membership of the traveller community
- harassment or sexual harassment

The following strategies may be used in cases of unacceptable behaviour:

- reasoning with the student
- verbal reprimand including advice on appropriate behaviour & how to improve
- a note in the school journal
- change of seating arrangement within the class
- temporary withdrawal from a particular lesson or activity to a supervised location;
- monitoring / *on report*
- record on student's file
- confiscation
- repair, replacement or compensation for damage to property
- Year Head detention (with adequate prior notice)
- suspension from participating in school trips / extra-curricular activities/TY activity
- student review
- moving the student to a different Form Class
- referral to Deputy Principal or Principal
- formal report to the Board of Management
- suspension
- expulsion

The list is not exhaustive and any one or combination of responses may be appropriate.

Suspension & Expulsion

The principles of natural justice will apply where a student is suspended or there is a proposal to expel. The procedures laid down in the NEWB Guidelines for Schools (2008) will be followed

There may be cases of unacceptable behaviour, where it will be necessary to remove a student from school for a period of time or for the Board of Management to expel a student permanently from the school.

Only the school Principal may suspend a student from school. The Principal has authority, under the “*Articles of Management for Secondary Schools*” to suspend “any pupil for a limited period and shall report any such suspension to the Board of Management at its next meeting.” [Article 19(b)] The Principal may suspend a student for a period of three days without recourse to the Board. When the Principal deems a longer suspension necessary, the matter will be referred to the Board of Management for approval. Where it is impracticable to convene a meeting of the Board within that timeframe, the Principal may impose a suspension of up to five consecutive days with the sole approval of the Chairperson.

A student may be suspended, pending investigation and discussion with parent(s) /guardian(s), for gross misbehaviour or any single incident of serious misconduct.

In exceptional circumstances, the principal may consider an immediate suspension to be necessary where the continued presence of a student in the school at the time would present a threat to safety

The school will endeavour to work with parents, with a view to assisting a student who has been suspended to improve her behaviour so that she may re-join the school community as soon as possible.

Procedure (Suspension)

In all instances where suspension is applied, parents will be contacted and notified. In most instances parents will be asked to meet with the Principal, Deputy Principal or person acting on the authority of the Principal, to discuss the matter.

In the case of an immediate suspension, parents will be notified and arrangements will be made with them for their daughter to be collected from school.

In all cases, a formal letter of notification will be sent to parents.

All suspensions are recorded in the student’s file and are reported to the Board of Management.

A parent may be requested to accompany the student to school on her return and meet with the Year Head, Deputy Principal or Principal, before attending class.

Parents may be requested to agree to certain interventions to assist the student e.g. referral of the student for educational psychological assessment, counselling or other pastoral support services.

Appeals:

A parent or a student over 18 years of age may appeal, in writing, a suspension by the Principal to the Board of Management

That letter of appeal addressed to the Secretary of the Board of Management, must set out the grounds for the appeal

The appeals process will at all times follow the principles of natural justice:

- Appellants have the right to be made aware of all details relating to all allegations against the student
- The parents and the Principal will present their arguments to the Board after which they will leave the meeting while the decision is being made
- Parents and the Principal may be asked to remain available to the Board who may seek further clarification

- The decision of the Board will be communicated in writing to the parents
- If dissatisfied the appellants have the right to appeal in accordance with Section 29 of the Education Act (1998) to the Educational Welfare Services of the Child and Family Agency (TUSLA)

It is possible that the suspension may be served before the appeal hearing by the Board of Management. In this case, if the appeal is successful, the record of suspension will be removed from the student's file.

The school is obliged to inform the Educational Welfare Services of the Child and Family Agency (TUSLA) pursuant to section 21(4) (a) of the Education (Welfare) Act 2000:

- If the suspension is longer than 6 days **or**
- If the student has been suspended for a cumulative total of more than 20 days during the school year.

The Board will review formally any proposal to suspend a student where the suspension would bring the number of days for which the student has been suspended in the current school year to 20 days or more. Where the total number of days for which a student is suspended in one school year reaches 20, parents will be informed in writing of their right of appeal pursuant to *section 29 of the Education Act 1998*.

Expulsion

The Board of Management alone has the power to expel a student

While it is impossible to foresee every eventuality, the following represent situations where expulsion may be considered:

- the student's actions pose a real threat to the health, safety and welfare of others
- the student's actions constitute a continuous and serious disruption of the learning of others
- the student concerned can no longer benefit by remaining in this school
- when the student concerned has, through continued misconduct, displayed an unwillingness to accept the standards set out in the school Code of Behaviour
- Any other gross misbehaviour

Procedure (Expulsion)

Where the possibility of the expulsion of a student becomes a consideration, the Principal must refer the concern to the Board of Management. The procedure will be as follows:

- The parents of the student will be informed in writing of the reasons for considering this course of action, and provided with copies of all documents and disciplinary records being made available to the Board of Management
- Pending the outcome of any proceedings, the Principal reserves the right to suspend the student in accordance with Section 24(5) of the Education (Welfare) Act 2000 if, in her opinion, such a action is appropriate to ensure that good order and discipline are maintained and that the safety of students is secured
- Parents will be invited to attend and present their case to the Board meeting at which the issue will be discussed

- The Principal will present the case to the Board of Management in the presence of the parents
- The parents will present their response
- Both parties will leave the meeting while the Board of Management deliberates
- The Board may further request information from the Principal and parents / student
- In weighing the situation, the Board of Management will take into consideration:
 - the student's record of behaviour
 - the impact of the behaviour on the rights of others
 - any mitigating factors affecting the individual's behaviour such as age, record of behaviour, particular personal circumstances

This list is not exhaustive

The decision of the Board will be formally communicated to the parents in writing. If the decision is to expel, parents will be informed of their right to appeal to the Secretary General of the Department of Education and Skills in accordance with Section 29 (Education Act 1998)

Under Section 24 of the Education (Welfare) Act 2000 the Board shall, before expelling the student, notify the Education Welfare Officer of its opinion and the reasons for the proposed expulsion

- In accordance with section 24 of the Education (Welfare) Act 2000 the decision to expel will not take effect for 20 school days following receipt of the notice of expulsion by the Educational Welfare Services of the Child and Family Agency (TUSLA)

Appeals:

- Documentation will be supplied in relation to an Appeal under Section 29 with the letter, giving notice of intention to expel
- Appeals must be made within 42 calendar days from the date on which the decision of the school was notified to the parent
- In the event of an appeal being lodged, the Board of Management will cooperate fully in all procedures initiated by the Educational Welfare Services of the Child and Family Agency (TUSLA)
